

# Determination of Effect to Cultural Resources

**Iron Mtn. Communication Site Permit**

Project Title

**R2018011700031**

INFRA Event Number

A cultural resource records search has been conducted for this project. Based on the project description a “*No Inventory Decision*” has been made for this project per stipulation V(A) of the North Idaho Cultural Resource Programmatic Agreement.

**Rationale.** Because of previous adequate inventory; or the type, location or nature of the undertaking - the Forest Cultural Resource Specialist has determined the above project has little likelihood to adversely affect historic properties. As a result, a *No Inventory Decision* has been made and the project may proceed **assuming the Nez Perce Tribe has not indicated there are cultural/religious properties present.**
